# The new Caddy Cargo

## The new Caddy Cargo **For whatever comes next**

The new Caddy Cargo is just perfect for all those with big plans. The fifth generation of the most popular urban delivery van in its class is now here – even more powerful, more digital and more variable than ever before.

Illustrations include option at extra charge. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

### **New variability**

New wider Maxi sliding door, various partitions, payload of up to 723 kg<sup>1)</sup> and versatile floor coverings.

### **Modern design**

New distinctive front end with honeycomb structure, dynamic and clear lines, and numerous enhancements for a lower drag coefficient.

### **Load compartment with new strengths**

Windowless rear wing doors, new electric power closing system for sliding doors and tailgate<sup>2)</sup>, optimised LED load compartment lighting<sup>2)</sup>, versatile floor coverings.

### **Innovative transport solutions**

New separate load compartment locking system, new keyless locking and starting system "Keyless Access/Advanced"<sup>2)</sup>, "Trailer Assist"<sup>2), 3)</sup>, roof load up to 100 kg.

### **Two wheelbases**

The new Caddy Cargo is also available as Caddy Cargo Maxi with long wheelbase and a new wider Maxi sliding door.

### **Even more digital and connected**

New high-resolution Innovision Cockpit<sup>2)</sup>, new infotainment systems<sup>2)</sup> with up to 25.4 cm (10-inch) touchscreen, digital fleet management Volkswagen We Connect Fleet<sup>2), 4)</sup> and inductive<sup>2)</sup> charging of smartphones.

### **Optimised driver's workplace**

Universal storage concept, new ergoComfort seats<sup>2)</sup>, armrests for driver and front passenger seats<sup>2)</sup>, folding front passenger seat with new back panel<sup>2)</sup>, 230 V socket<sup>2)</sup>.

### **Proven quality**

Use of durable materials, high-quality workmanship and reliable new-generation engines with significantly reduced emissions.

### **Robust interior**

New cockpit: dash panel, door, side and seat frame trim are finished in a dark colour that is insensitive to soiling.

### **Partly automated driving**

Latest-generation driver assist systems, including "Lane Assist"<sup>2), 3), 5)</sup>, "Side Assist"<sup>2), 3)</sup>, "Trailer Assist"<sup>2), 3)</sup> and ACC 2.0<sup>2), 3), 6)</sup>.

# Mobility, in its latest form

1) The permitted payload varies depending on equipment. 2) Option at extra charge. 3) Within the system thresholds. 4) To use We Connect Fleet services, you need a business Volkswagen user account, and must log into connectfleet.io with your username and password. In addition, a separate Connect Fleet contract must be concluded online with Volkswagen AG. You can find information on the individual activation deadlines after vehicle handover to allow use of the services for the full period of the agreed free term at <https://connectfleet.io/home>. Subject to an additional fee after expiry of the initial We Connect Plus service term. Available only in conjunction with a compatible infotainment system. Will be introduced at a later time in combination with the "Composition Audio" radio system. 5) The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care. 6) Available only in conjunction with the dual-clutch gearbox (DSG). Illustrations include option at extra charge. The representation of the materials may differ. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

## A whole lot of **progress**

A flying start into fast-paced everyday working life. The new Caddy Cargo always gives 100 percent. With particularly smart functions. In impressively strong form. And with extremely versatile capabilities. Whatever the challenges in your job: you can rely on the newly designed new Caddy Cargo and new Caddy Cargo Maxi.

Illustrations include option at extra charge. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

## Open Caddy

Ready for a working world full of new challenges. The new Caddy Cargo offers intelligent solutions such as the larger sliding door width in the new Caddy Cargo Maxi.

02 | 03

**01 Maxi sliding door.** **NEW** Euro pallets can be loaded lengthways. Together with the longer wheelbase, the sliding door has also increased in size by 141 mm on the new Caddy Cargo Maxi to offer a total Maxi sliding door width of 836 mm<sup>1)</sup>.

**02 Separate load compartment locking system.** **NEW** Opens up only where work is taking place. With the load compartment locking system, the doors to the cab remain securely locked while the load compartment is open.

**03 Keyless locking and starting system "Keyless Access/Advanced".** **2)** **NEW** Saves having to frequently reach for the vehicle key. Thanks to the automatic locking and starting system, the vehicle key can remain in a trouser pocket when opening and locking doors or starting the vehicle.

**Electric power closing.** **2)** **NEW** Helps when closing the vehicle. The electric power closing system means that the sliding doors and tailgate need less force when closing because they are automatically pulled into the lock.

**Windowless rear wing doors.** **NEW** Offer the kind of flexibility and durability that are most frequently demanded of a delivery van by professionals. The new Caddy Cargo is the first Caddy to come with rear wing doors installed as standard.

01

1) With partition. 2) Option at extra charge. Illustrations include option at extra charge. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

# Stress, say goodbye

Well-organised and relaxed through fast-paced everyday working life. The intelligently designed driver's workplace in the new Caddy Cargo impresses with practical details such as the wide stowage compartment.

01

02

**01 Open stowage compartment.** Can be used for many different purposes. The open stowage compartment in front of the windscreen is a versatile stowage area for documents and utensils that have to be easily accessible.

**02 Drawer.<sup>1)</sup>** Opens up new stowage space. The practical drawer is the ideal place for storing items such as a high-visibility waistcoat, torch and tow-rope in a fixed place – so that they are quickly accessible if needed.

**03 ergoComfort seats (AGR) for driver and front passenger.<sup>1)</sup> NEW** Protect the back thanks to extensive adjustment options. The ergoComfort seats feature an electric 4-way lumbar support and have been awarded the independent "Certified and recommended" seal of approval by the German Campaign for Healthier Backs (AGR)<sup>2)</sup>.

**Online Traffic Information (We Connect Plus).<sup>3), 4), 5)</sup>** Reacts before any time is lost. On the basis of up-to-date traffic information from the Internet, the Online Traffic Information service warns the driver in good time about traffic disruptions, hazards or restricted visibility and automatically determines alternative routes.

03

04

**04 Direct-access key module.<sup>3)</sup> NEW** Knows the most important shortcuts. Frequently used functions such as assist systems, climate functions and parking systems can be selected directly via the buttons. Functional scope depending on equipment.

1) Option at extra charge. 2) Source: German Campaign for Healthier Backs: <https://www.agr-ev.de/en/back-friendly-products/back-friendly-products/2903-car-seats> 3) Available only in conjunction with a compatible infotainment system. 4) To use We Connect services, you need to have a Volkswagen ID user account, and must log into We Connect with your username and password. In addition, a separate We Connect contract or We Connect Plus contract must be concluded online with Volkswagen AG. For We Connect Plus, you have 90 days from the handover of the vehicle to register the vehicle at [portal.volkswagen-we.com](http://portal.volkswagen-we.com) and use the services for the full duration of the agreed free period. 5) Subject to an additional fee after expiry of the initial We Connect Plus service term.

Illustrations include option at extra charge. The representation of the materials may differ. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

## Digitalised **like never before**

Keep up with developments in the long term. The new Caddy Cargo is optionally available as a fully digital vehicle – with outstanding technologies such as the InnoVision Cockpit.

**01 InnoVision Cockpit.**<sup>1)</sup> **NEW** Offers a fantastic panorama while still in the underground car park. The InnoVision Cockpit develops its full innovative power through the combination of Digital Cockpit and navigation system.

**02 Multifunction steering wheel.**<sup>1)</sup> **NEW** Has a good grip of things. The multifunction steering wheel is particularly comfortable to hold and impresses with its high degree of user friendliness. Direct control of many vehicle functions such as cruise control system or the infotainment system makes the driver's work easier.

**03 Voice control.**<sup>1), 2)</sup> **NEW** Is activated by the voice command "Hello Volkswagen". Voice control is possible for the radio, compatible smartphones, the air conditioning system and the navigation system.

**04 "Comfort" mobile phone interface.**<sup>1), 2)</sup> Simple wireless connection. Smartphones placed in the

compartment are automatically connected to the external aerial, and compatible devices can also be inductively charged.

**05 Area Alert (We Connect Plus).**<sup>2), 3)</sup> Provides information about whether everything is going to plan. The Area Alert service issues an alert if a vehicle enters or leaves certain areas at defined times of day.

**06 Online Destination Import (We Connect Plus).**<sup>2), 3)</sup> Saves valuable time. Alternatively to destination input in the navigation system, individual destinations can be sent to the vehicle with We Connect.

**07 Wi-Fi hotspot.**<sup>1)</sup> **NEW** Provides a large bandwidth for the mobile office. The integrated Wi-Fi hotspot connects up to eight devices with a stable Internet connection. Data plans can be purchased directly via the infotainment system.

# The fleet in view

We Connect Fleet<sup>1), 2)</sup> is the Volkswagen fleet management system. The system can also be used for most vehicles of other car manufacturers<sup>3)</sup> and allows fast and easy access to important fleet information.

01

**We Connect Fleet<sup>1), 2)</sup>** Whether you are managing logbooks digitally or checking up on costs and consumption: you can manage your fleet easily and efficiently via the associated web portal and the app. This saves time and significantly eases your daily workload.

## The services at a glance:

- Digital Logbook
- Digital Cost Logbook.
- Maintenance Management<sup>4)</sup>
- Consumption Analyser
- GPS Tracking & Route Information<sup>5)</sup>
- Fleet Driving Efficiency

Further information on We Connect Fleet<sup>1), 2)</sup> is available at: [we-connect-fleet.de](http://we-connect-fleet.de)

02

**01 Digital Logbook.** Takes over documentation of all journeys. All trips are recorded completely and transferred to the central web portal for the fleet manager.

**02 Digital Cost Logbook.** Provides information about various vehicle costs. The costs of fuel and other items are documented by the driver via the We Connect Fleet app or by the fleet manager on the Connect Fleet web portal.

**Other online services.** The free We Connect<sup>6)</sup> offers a wide range of helpful services and vehicle functions. Many additional functions are available with We Connect Plus<sup>6), 7)</sup>.

## We Connect<sup>6)</sup> offers:

- Breakdown Call
- Parking Position
- Automatic Accident Notification [NEW](#)
- Vehicle Status
- Doors & Lights
- Vehicle Health Report
- Driving Data
- Service Scheduling

Volkswagen We Connect<sup>6)</sup> can do even more. You can find all the services at: [vwn.de/mod](http://vwn.de/mod)

## We Connect Plus<sup>6), 7)</sup> offers:

- Online Traffic Information
- Online POI Search
- Online Map Update [NEW](#)
- Online Route Calculation
- Filling Stations and Charging Stations
- Parking Spaces
- Online Voice Control [NEW](#)
- Area Alert
- Online Anti-Theft Alarm
- Online Auxiliary Heater<sup>8)</sup>
- Remote Ventilation Control<sup>9)</sup> [NEW](#)
- Online Destination Import
- Media Streaming<sup>10)</sup> [NEW](#)
- Internet Radio<sup>10)</sup> [NEW](#)
- Wi-Fi Hotspot<sup>10)</sup> [NEW](#)
- Speed Alert
- Horn & Turn Signals

1) To use We Connect Fleet services, you need a business Volkswagen user account, and must log into connectfleet.io with your username and password. In addition, a separate Connect Fleet contract must be concluded online with Volkswagen AG. You can find information on the individual activation deadlines after vehicle handover to allow use of the services for the full period of the agreed free term at connectfleet.io. Subject to an additional fee after expiry of the initial We Connect Plus service term. Available only in conjunction with a compatible infotainment system. Will be introduced at a later time in combination with the "Composition Audio" radio system. 2) Optional extra. 3) When using a LINK 610, We Connect Fleet is compatible with: Crafters from model year 2017, Caddys from model year 2015, Transporters from model year 2015 and a range of other vehicles not belonging to the Volkswagen Group. 4) Maintenance tasks can be sent to the authorised workshop either manually or automatically. The workshop will then make contact either by phone or email. 5) Route information for third-party vehicles available only with LINK 610. 6) Available only in conjunction with a compatible infotainment system. To use We Connect services, you need to have a Volkswagen ID user account, and must log into We Connect with your username and password. In addition, a separate We Connect contract or We Connect Plus contract must be concluded online with Volkswagen AG. For We Connect Plus, you have 90 days from the handover of the vehicle to register the vehicle at portal.volkswagen-we.com and use the services for the full duration of the agreed free period. 7) Subject to an additional fee after expiry of the initial We Connect Plus service term. 8) Available only in conjunction with the optional auxiliary water heater with remote control. 9) Available only in conjunction with the "Climatronic" 2-zone air conditioning system and auxiliary water heater. 10) Available only in conjunction with the Streaming & Internet package. The scope of services of We Connect and We Connect Plus may vary and may be introduced at a later date. Illustrations include option at extra charge.

**“Rear Cross Traffic Alert”<sup>1), 2)</sup>**  
**NEW**

Monitors the road at right angles to the parking space when reversing out of a parking bay, detects approaching objects and prevents imminent collisions by an automatic braking intervention.

**Trailer manoeuvring system “Trailer Assist”<sup>1), 2), 3)</sup>**  
**NEW**

Simplifies control of a trailer for manoeuvring in bay parking spaces and for precise reversing.

**“Front Assist” with City Emergency Braking<sup>1), 2)</sup>**  
**NEW**

Detects pedestrians, cyclists and vehicles that are located in the direction of travel and warns the driver about recognised danger situations. If the driver does not react in time, emergency braking is initiated automatically and an avoidance manoeuvre is supported in critical situations.

**Adaptive Cruise Control ACC 2.0 with “Stop and Go” function<sup>1), 2), 4)</sup>**  
**NEW**

Helps to maintain the correct distance from the vehicle in front and drives off again after a short standstill time in traffic jams or urban traffic.

**“Travel Assist” with “Emergency Assist”<sup>1), 2), 4)</sup>**  
**NEW**

Combines the functions of ACC 2.0, “Lane Assist”, and “Emergency Assist” for relaxed long-distance driving.

**Lane keeping system “Lane Assist” with counter steering assistance<sup>1), 2), 5)</sup>**

Detects the vehicle lane by means of a multifunction camera and corrects unintentional departure from the lane as from 60 km/h by corrective counter steering.

**“Emergency Assist”<sup>1), 2)</sup>**  
**NEW**

Reduces the risks if the driver’s ability to control the vehicle is impaired. The system initially reacts to inactivity with an acoustic warning and waking jolts and subsequently initiates safe braking of the vehicle.

**Rear View<sup>1), 2)</sup>**

Brakes automatically when driving into and out of parking spaces if the Park Distance Control sensors or the rear radar detect an obstacle.

**Dynamic Road Sign Display<sup>1), 2), 6)</sup>**

Detects speed limits, no-overtaking zones as well as time- and weather-related restrictions with a special camera and informs the driver correspondingly.

**Lane change system “Side Assist”<sup>1), 2)</sup>**  
**NEW**

Warns about vehicles approaching from behind or that are already in the blind spot by means of an LED light in the respective exterior mirror.

# Driving with a **system**

So that every journey ends just as relaxed as it started, the new Caddy Cargo comes with a host of driver assist systems<sup>1)</sup> that are capable of making preventive interventions in critical situations.

Experience the enhanced and new driver assist systems as a video at: [vwn.de/fas](http://vwn.de/fas)

<sup>1)</sup> Option at extra charge. <sup>2)</sup> Within the system thresholds. <sup>3)</sup> Will be introduced at a later date. <sup>4)</sup> Available only in conjunction with the dual-clutch gearbox (DSG). <sup>5)</sup> The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care. <sup>6)</sup> Available only in conjunction with a compatible infotainment system.

01

\*Option at extra charge. Illustrations include option at extra charge.

02

**01 Partition.** Keeps your back free with plenty of space. The optimised convex shape of the partition extends into the load compartment and therefore creates plenty of space in the shoulder area for both driver and front passenger.

**02 High roof load.** Turns the common conception about small vans upside down. With a roof load of up to 100 kg, the new Caddy Cargo turns the roof into a serious loading zone for many different loads.

**03 Lashing eyes.** Keep their promise. The six folding lashing eyes secure heavy loads rock-solid on the vehicle floor of the new Caddy Cargo.

**04 Rubber floor covering.** Increases safety thanks to a non-slip surface. The robust rubber floor covering can be simply washed clean in the event of heavy soiling.

03 | 04

**Wooden floor.\* NEW** Can easily cope with even hard blows. The particularly sturdy load area covering made of multi-bonded beech wood protects the vehicle floor and impresses with its water-resistant and non-slip surface.

**Robust interior.** Remains remarkably unimpressed by daily use. The seat fabrics and trims in the vehicle interior are particularly insensitive to soiling.

## Built for big jobs

Tackle the tougher tasks of the day without any worries. Thanks to its rugged materials and innovative technology, the new Caddy Cargo is ready to do practically anything you ask of it.

Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

# New driving force

Whether on the motorway, in the city or on a construction site: the new Caddy Cargo can be ideally adapted to your driving profile. With engines of the next evolutionary stages, DSG and 4MOTION.

## 01 Dual-clutch gearbox (DSG)<sup>1), 2)</sup>

No time for idling. The new Caddy Cargo can be equipped with a 7-speed dual-clutch gearbox for fully automatic gear changes without any interruption in tractive force.

## 02 4MOTION all-wheel drive<sup>1), 2), 3)</sup>

Likes to set all the wheels in motion. The all-wheel drive system automatically adapts power transmission to the wheels to the respective driving situation. This is the basis for optimum handling and high driving dynamics, also when driving off-road.

## Improved emission control. **NEW**

When two are better than one. Innovative twin dosing reduces the NO<sub>x</sub> emissions of TDI engines compared with the predecessor model. This is achieved by targeted double injection of AdBlue<sup>®</sup> ahead of the two SCR catalytic converters arranged in series. A special ammonia trap downstream of the SCR system also prevents the slip of excess ammonia.

**Efficient engines. **NEW**** Give fuel more power. The four combustion engines of the new Caddy Cargo are among the most efficient and economical TSI and TDI engines that have ever been installed in a vehicle of its class.

1) Option at extra charge. 2) Not available for all engines. 3) Will be introduced at a later date. Illustrations include option at extra charge. The representation of the materials may differ.

01

## A better way of mobile working

Sudden surprises at the work location are no longer a problem. The new Caddy Cargo makes it easy to deal with all kinds of different tasks right away on the spot.

**01 Back panel.\*** NEW Gives the front passenger seat a new job. When folded forward, the backrest becomes a writing surface with practical stowage options, a rubber band for securing large folders and a smartphone holder.

03

02

**02 230 V socket.\*** Satisfies even large energy appetites. The central position on the partition is ideal for charging various devices such as laptops and tools in the cab.

**03 LED load compartment lighting.\*** Reaches into even the darkest corner. The energy-saving LED technology protects the vehicle battery and ensures improved illumination of the entire load compartment.

## Perfectly **adapted**

It does not matter what job you want to customise the Caddy Cargo for: it offers the best possible prerequisites for this. The new axle system increases the flexibility for conversions thanks to a larger minimum load space width.

**01 Sortimo SR5 for the driver side.** Maximises use of the load compartment. The intelligent shelf system allows perfect adaptation of the components to the contour of the side panel. Even if shelves are installed on both sides of the vehicle, it is still possible to load Euro pallets thanks to the slim side profiles.

**02 Sortimo SR5 for the front passenger side.** A rotary block allows direct access from the sliding door. The rotary block is installed at an angle of 90° to the vehicle equipment and is equipped with three drawers. A folding vice is also mounted on the side profile of the shelf.

## Customized**Solution** Premium**Partner**

**Your wish. Our solution.**

You can find detailed descriptions of all bodies and conversions as well as the contact details of our PremiumPartners at: [umbauportal.de](http://umbauportal.de). Do not hesitate to call us if you have any questions. Our free hotline: **00800 2878 66 49 33**.

# Equipment

## Exterior

- Bumpers in grey
- Bumpers, door and tailgate handles in exterior colour
- Exterior mirror housings painted black [NEW](#)
- Door handles in exterior colour
- Radiator grille without chrome strip [NEW](#)
- Roof railings in black or silver
- H7 headlights
- LED headlights [NEW](#)
- LED tail light clusters [NEW](#)
- Electrically adjustable exterior mirrors
- Electrically adjustable and heated exterior mirrors
- Electrically adjustable, heated and folding exterior mirrors

## Infotainment and connectivity

- 6.5-inch CAR menu without radio function [NEW](#)
- 6.5-inch "Composition Audio" radio system [NEW](#)
- 8.25-inch "Composition" radio system [NEW](#)
- 10-inch "Ready 2 Discover" radio system [NEW](#)
- 10-inch "Discover Media" navigation system [NEW](#)
- 10-inch "Discover Pro" navigation system [NEW](#)
- Digital radio reception DAB+
- Voice control [NEW](#)
- Bluetooth hands-free system
- App-Connect
- "Comfort" mobile phone interface incl. inductive charging function [NEW](#)
- USB-C port with charging function in the cockpit [NEW](#)
- USB-C port with charging and data function in the cockpit [NEW](#)

**01 "Composition Audio" radio system.** The system with 16.5 cm (6.5-inch) colour touch display and up to 4 loudspeakers offers an integrated USB-C port, a Bluetooth mobile phone interface and DAB+.

**02 "Composition" radio system.** In addition to the functions of the "Composition Audio" radio system, the system offers a 20.9 cm (8.25-inch) colour touch display, up to 4 loudspeakers, two USB-C ports in the centre console and a Bluetooth interface. The system supports We Connect<sup>1)</sup> and We Connect Plus<sup>1), 2)</sup>.

**03 "Ready 2 Discover" radio system.** In addition to the functions of the "Composition" radio system, the system offers a 25.4 cm (10-inch) colour touch display and smartphone integration. The system also offers the option of subsequent purchase and activation of navigation functions in the in-car online shop.

**04 "Discover Media" navigation system.** The system with 25.4 cm (10-inch) colour touch display and 4 loudspeakers offers 2D /3D navigation, a choice of a wide range of map options, free online map updates, We Connect<sup>1)</sup> and We Connect Plus<sup>1), 2)</sup>.

**05 "Discover Pro" navigation system.** In addition to the functions of the "Discover Media" navigation system, the system offers voice control, App-Connect Wireless, Streaming & Internet and We Connect Plus<sup>1), 2)</sup> for three years. We Connect Upgrades<sup>3)</sup> can also be optionally booked. The high-end system can also display a view of the navigation map on the Digital Cockpit and permits Dynamic Road Sign Display as standard<sup>4)</sup>.

## Driver's workplace

- Dash panel with several stowage compartments and open glove box
- Glove box, lockable with light
- Roof gallery with stowage tray
- Driver seat with height adjuster
- Front passenger seat with height adjuster
- Front passenger seat with folding backrest and back panel
- Manual lumbar support for driver and front passenger seats
- ergoComfort seats (AGR) for driver and front passenger seats [NEW](#)
- Armrests for driver and front passenger seats [NEW](#)
- Drawers under the front seats
- Steering wheel
- Multifunction steering wheel [NEW](#)
- Multifunction steering wheel in leather [NEW](#)
- Shift-by-wire for DSG
- "Plus" multifunction display
- Digital Cockpit [NEW](#)
- Innovision Cockpit [NEW](#)
- Electric windows
- Carpet floor covering
- Rubber floor covering
- Floor mats
- LED interior lighting [NEW](#)
- 12 V socket
- 230 V socket [NEW](#)

## Air conditioning and sun protection

- Electronically controlled heater
- Electronically-controlled manual air conditioning system, incl. dust and pollen filter [NEW](#)
- "Climatronic" 2-zone air conditioning system incl. AirCare
- Seat heating for driver and front passenger seats.
- Electric auxiliary air heater [NEW](#)
- Auxiliary water heater with remote control
- Sun visors with ticket pocket
- Sun visors with ticket pocket and mirror
- Heated windscreen incl. heated washer jets [NEW](#)
- Heated rear window
- Heat-reflecting glass

**06 Steering wheel.** This is pleasant to hold and is vertically and longitudinally adjustable.

**07 Multifunction steering wheel.** Makes it easier to operate various systems when driving.

**Multifunction steering wheel in leather.** This is particularly pleasant to hold and impresses with a high degree of user-friendliness. On vehicles with dual-clutch gearbox (DSG), additional paddles permit agile gear changes.

**08 Electronically-controlled manual air conditioning system, incl. dust and pollen filter.** Permits continuously variable control of the desired interior temperature.

**09 "Climatronic" 2-zone air conditioning system incl. AirCare.** The fully automatic air conditioning system with allergen filter has various sensors and keeps the set temperature constant for the driver and front passenger.

1) To use We Connect services, you need to have a Volkswagen ID user account, and must log into We Connect with your username and password. In addition, a separate We Connect contract or We Connect Plus contract must be concluded online with Volkswagen AG. For We Connect Plus, you have 90 days from the handover of the vehicle to register the vehicle at portal.volkswagen-we.com and use the services for the full duration of the agreed free period. 2) Subject to an additional fee after expiry of the initial We Connect Plus service term. 3) To use We Upgrade items, you need a Volkswagen ID user account, a valid We Connect contract and your legitimization as primary user, i.e. linking of your user account to the specific vehicle. In addition, the vehicle must have the technical functions and hardware equipment required for the respective "We Upgrade". The primary user can view the "We Upgrade" functions available for the respective vehicle in the web or in-car shop. 4) Within the system thresholds. Illustrations include option at extra charge. The representation of the materials may differ. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

**01 Tailgate with window.** Opens particularly smoothly and can also be used as a shelter in the rain thanks to its large opening height. The wide window cutout extends the field of visibility.

**02 Rear wing doors without windows.** The roof-high rear wing doors are split in the ratio ⅓ to ⅔ and have a maximum opening angle of around 180°.

**03 Partition with window and protective mesh.** The angled position of the window avoids reflections in the driver's field of vision. The mesh protects the window from damage as a result of abrupt braking manoeuvres, for example.

**04 Partition, closed.** Fully separates the load compartment from the cab.

Tyre pressure monitoring display, direct measurement <sup>2), 3)</sup> <b>NEW</b>	•
Electronic parking brake with Auto Hold function <sup>2)</sup>	•

**05 Wooden floor.** Is ideal for loading with Euro pallets. The sturdy, 5-ply bonded beech wood with a thickness of 10 mm offers a non-slip surface.

**06 Towing bracket, removable, maximum trailer weight up to 1,500 kg<sup>1)</sup> incl. trailer stabilisation.** Permits assembly and disassembly in a few simple steps.

1) The maximum trailer weight varies depending on the engine. 2) Within the system thresholds. 3) Available only in conjunction with a compatible infotainment system. 4) Available only in conjunction with the dual-clutch gearbox (DSG). 5) The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care. 6) Will be introduced at a later date. Illustrations include option at extra charge. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras available in your country.

The vehicles shown in this catalogue may be equipped with options at extra charge. All of the information regarding equipment and technical data is based on the characteristics of the German market and corresponds to the knowledge available at the time of printing. Your Volkswagen dealer will be happy to provide you with details on the products available in your country. Subject to change without notice. DSG® and 4MOTION® are registered trademarks of Volkswagen AG and other companies in the Volkswagen Group in Germany and in other countries. The fact that a trademark is not shown with an ® sign in this document cannot be interpreted to mean that this is not a registered trademark and/or that this mark can be used without prior approval in writing from Volkswagen AG. Volkswagen provides for the return and recycling of end-of-life vehicles. As such, all Volkswagen vehicles can be recycled and, subject to fulfilment of legal requirements, can be returned free of charge. Further information is available from your Volkswagen dealer, online at [www.volkswagen.com](http://www.volkswagen.com) or in Germany via the free-call phone number 0800 – VOLKSWAGEN (0800 – 86 55 79 24 36).

The use of We Connect mobile online services is possible using an integrated internet connection. Where network coverage is available, the data costs incurred in this context within Europe are borne by Volkswagen AG, with the exception of "Streaming & Internet" services. To use the "Streaming & Internet" services and the Wi-Fi hotspot, data bundles can be bought via an external mobile communications partner, "Cubic Telecom", and used in many European countries which have network coverage. Information on prices and supported countries is available at [vw.cubiclecom.com](http://vw.cubiclecom.com). Alternatively, it is possible to use internet radio and media streaming via a mobile device (e.g. a smartphone) that is enabled to function as a mobile Wi-Fi hotspot. In this case, the corresponding services are available only in conjunction with an existing or separately concluded mobile contract between you and your mobile provider, and only where coverage by the corresponding mobile network is available. Depending on your mobile phone tariff, receiving data from the Internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). To be able to use the free We Connect app, you need a smartphone with a suitable iOS or Android operating system and a SIM card with a data package as part of an existing mobile phone contract between you and your mobile phone company or with a contract concluded separately for this purpose. The availability of the individual We Connect and We Connect Plus services described in the packages may vary from country to country. The services are available during the agreed contractual period and may be subject to amendments or termination for the duration of the contract. Visit [vwn.de/mod](http://vwn.de/mod) or contact your Volkswagen Commercial Vehicles dealer for more information. Please contact your network provider for information regarding your mobile phone tariff.
