

# The Multivan 6.1

The icon, updated.  
**The Multivan**

# 6.1

## The camper van – the original.

The automotive legend. Successful on the market for 70 years and awarded many prizes: 16x Best Car<sup>1)</sup>, 14x All-Wheel Drive Car Of The Year<sup>2)</sup>, 11x Auto Trophy<sup>3)</sup>.

## Refined design.

Completely renewed front, new alloy wheels<sup>4)</sup>, modified colour range as well as LED headlights<sup>5)</sup> and LED tail lights<sup>5)</sup> with a striking signature.

## Proven quality.

Highly stable vehicle body, durable materials and high-quality workmanship.

## Impressive range of variants.

Three equipment lines, several engine/gearbox combinations and a wide selection of optional equipment.

## Optimum off-road capability.

4MOTION all-wheel drive<sup>4)</sup>,<sup>6)</sup>, Dual clutch gearbox DSG<sup>4)</sup>,<sup>6)</sup>, Hill Descent Assist<sup>4)</sup>,<sup>7)</sup>,<sup>8)</sup>, Hill Start Assist<sup>8)</sup> and mechanical differential lock<sup>4)</sup>,<sup>7)</sup>.

## State-of-the-art driver assistance systems.

Now also with Dynamic Road Sign Display<sup>4)</sup>,<sup>8)</sup>, side protection<sup>5)</sup>,<sup>8)</sup>, cross wind<sup>8)</sup>, Lane Assist<sup>4)</sup>,<sup>8)</sup>,<sup>9)</sup>, Park Assist<sup>5)</sup>,<sup>8)</sup>, Rear Traffic Alert<sup>4)</sup>,<sup>8)</sup> and Trailer Assist<sup>4)</sup>,<sup>8)</sup>.

Option at extra charge in the Multivan Trendline and the Multivan Comfortline. 6) Not available for all engines. 7) Only in conjunction with the 4MOTION all-wheel drive. 8) Within the system thresholds. 9) The driver must be prepared at all times to override the assist systems. They are not released from their responsibility to drive with the utmost care. Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

---

### High driving comfort.

Ergonomic seats with dimensionally stable premium padding, excellent noise insulation, superb all-round visibility and a pleasant feeling of space.

---

### Best integration.

High-resolution colour Digital Cockpit<sup>1)</sup>, new radio and navigation systems with up to 23.4 cm (9.2 inch) touchscreens<sup>2)</sup>, online thanks to integrated SIM card, mobile online services Volkswagen We Connect<sup>3)</sup> and inductive<sup>2)</sup> charging of smartphones.

---

### Vehicle interior with maximum variability.

Swivel seats<sup>4)</sup> and 3-seater bench seat in the passenger compartment can be easily folded, steplessly rolled and securely fixed at any point of the rail system. Easy handling during seat removal and installation.

---

### Upgrade of standard equipment.

All equipment lines shown include a leather-covered multifunction steering wheel, a redesigned dash panel, electric child safety lock, Cross Wind Assist<sup>5)</sup> and LED interior lighting.

1) As standard in the Multivan Highline. Option at extra charge in the Multivan Comfortline. 2) Option at extra charge. 3) To use We Connect services, you need to have a Volkswagen ID user account, and must log into We Connect with your username and password. In addition, a separate We Connect contract or We Connect Plus contract must be concluded online with Volkswagen AG. For We Connect Plus, you have 90 days from the handover of the vehicle to register the vehicle at [portal.volkswagen-we.com](http://portal.volkswagen-we.com), and use the services for the full duration of the agreed free period. 4) As standard in the Multivan Comfortline and Multivan Highline. Option at extra charge in the Multivan Trendline. 5) Within the system thresholds. Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

# Van of the world.

When the first VW camper van (the “Bulli”) came off the production line in 1950, nobody could have imagined that it would one day move the whole world. First there was the “window bus”, and then later also the “Samba”. Little by little it became today’s Multivan. But one thing has remained the same since the beginning – its core, the camper van DNA.

Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

Multivan. Multifun.

Illustrations include options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

More flexible. More variable. More carefully considered. The Multivan can do almost anything.

Highly versatile. The Multivan adapts to almost any family.

Illustrations include options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

Slide. Fold. Turn. There are a great deal of good ideas in the Multivan.

Addicted to freedom.

With attention to detail.

### More sensitive.

Everyone is familiar with the problem of the sweltering sun shining on one side of the car. On the left, the driver starts sweating, while on the right the passenger is shivering. "Climatronic"<sup>1)</sup> provides a remedy. Special sensors automatically adjust the cooling output of the air conditioning system to the sun's rays. The driver feels a pleasant breeze.

### Top dog.

Maximum interior space. Outside as compact as possible. The Multivan is consistently designed for everyday life. On the one hand, it offers the vehicle occupants plenty of head and legroom. On the other hand, thanks to its vehicle height of less than 2,000 mm<sup>2)</sup>, it fits in most underground garages. The short wheelbase also allows a small turning circle of only 11.9 m<sup>2)</sup>.

### Door stopper.

The electric sliding doors<sup>3)</sup> have multiple little small guards that make sure that nothing gets trapped – no matter whether the doors are opened and closed from the cockpit, using the remote control key from a distance or directly using the door handle. The built-in sensors respond immediately if, for example, a hand touches them.

### Roller blader.

Nothing gets caught in the Multivan. Seats, multi-functional table<sup>3)</sup> and Isobox<sup>4)</sup> run quietly back and forth on the aluminium cover of the rail system thanks to their hard rubber rollers – from front to back in the passenger compartment. There are no defined seating areas. So it does not matter where on the rail the seats are engaged: in any case, they are always well secured.

### Cuddly bear.

Do you work in your car on a regular basis or do you want to spend the night in the car? Then you are on the safe side with a power auxiliary air heater<sup>4)</sup> with up to 3,000 watts. It keeps the vehicle interior pleasantly warm for up to 48 hours. There is the auxiliary water heater<sup>4)</sup> for everyone who wants to have their windscreen freed of ice in the morning before starting. Set accordingly, it heats up the windscreen before setting off.

### Quiet machine.

It's quiet in the Multivan. There are several reasons for this. The balance shaft on the engine is one of them. It swallows engine vibrations before they occur. The result: the engine runs much more quietly. The rest is largely absorbed by the assembly carrier, which is decoupled from the running gear. Even quieter with the insulating glass package<sup>4)</sup>. It significantly reduces external noise.

### Neck protector.

In the Multivan, it is no coincidence that the air vents are located in the middle of the passenger compartment in the recirculating air canopy. On the one hand, they are easily accessible for everyone. On the other hand, they do not blow cold air from the side or from behind into the neck if the seats are positioned accordingly.

### Quick loader.

Long objects, such as skis, do not necessarily have to be attached to the roof. They can also be easily pushed under the 3-seater bench seat and safely transported in the passenger compartment.

1) As standard in the Multivan Highline. Option at extra charge in the Multivan Trendline and the Multivan Comfortline. 2) Please note that these are approximate values and dimensions may vary due to manufacturing tolerances. 3) As standard in the Multivan Highline. Option at extra charge in the Multivan Comfortline. 4) Option at extra charge. Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

# Closely integrated for the **future.**

Cars are getting smarter. The Multivan is already equipped with many digital technologies that make driving more comfortable. For example, the high-resolution Digital Cockpit<sup>1)</sup> with navigation map. Or Volkswagen We Connect<sup>2)</sup>: multiple services that turn your smartphone into a remote control for the car. And this is just the beginning.

1) As standard in the Multivan Highline. Option at extra charge in the Multivan Comfortline. 2) To use We Connect services, you need to have a Volkswagen ID user account, and must log into We Connect with your username and password. In addition, a separate We Connect contract or We Connect Plus contract must be concluded online with Volkswagen AG. For We Connect Plus, you have 90 days from the handover of the vehicle to register the vehicle at [vwn.de/mod](http://vwn.de/mod), and use the services for the full duration of the agreed free period. Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

# New Digital Cockpit

“All the important information at a glance – and freely configurable.”

You can now experience digital progress up close in the Multivan. State-of-the-art infotainment systems with large storage capacity and the Digital Cockpit<sup>1)</sup> offer many new functions. The latter immediately impresses with its 26 cm (10.25 inch) display, its intense colours as well as its bright and extremely high-contrast image. The Digital Cockpit<sup>1)</sup> is operated via the touch display of the infotainment system and via the leather-covered multifunction steering wheel. Use the buttons to conveniently scroll through the playlist in your smartphone media library, select the next call via contact portraits or set the safety distance with Adaptive Cruise Control ACC<sup>2)</sup>.<sup>3)</sup> in accordance with the statutory framework.

Even more possibilities arise when the Digital Cockpit<sup>1)</sup> is combined with the 23.4 cm (9.2 inch) “Discover Pro” navigation system<sup>2)</sup>. A large second navigation map can then be positioned on the Digital Cockpit<sup>1)</sup>. In addition, traffic jam information and available parking spaces can be imported via the Internet. An additional benefit: both maps can be zoomed in at different distances. In that case, the Digital Cockpit<sup>1)</sup> for instance only shows the immediate environment, while you have a large overview on the navigation system.

1) As standard in the Multivan Highline. Option at extra charge in the Multivan Comfortline. 2) Option at extra charge. 3) Within the system thresholds. 4) Only available in conjunction with the “Discover Pro” navigation system. Illustrations include options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

“No matter whether via app or Sat Nav – We Connect<sup>1)</sup> makes the Multivan more digital than ever before.”

With Volkswagen We Connect<sup>1)</sup> driving a car will be more digital, closely integrated and comfortable. With online personalisation, your vehicle automatically activates numerous personal settings for different drivers, depending on their equipment. A wide range of services gives you quick access to the Multivan – conveniently via your smartphone. The heart of the system is the We Connect<sup>1)</sup> App. It connects your smartphone to the vehicle with an integrated SIM card. The free We Connect<sup>1)</sup> basic package includes various vehicle reports, useful tools for service planning and a breakdown call. Also included: the parking position finder, which guides you directly to the vehicle. You can add many other services with the We Connect Plus<sup>1), 2)</sup> package. For example, using your smartphone you can start or program the auxiliary heating system<sup>3)</sup>, the online anti-theft warning system immediately sends a message to the mobile phone in the event of burglary attempts, and thanks to online map updates, the map material is always up to date. To take advantage of these exclusive services, you can register today with the We Connect<sup>1)</sup> Portal. Once your vehicle has been activated, you can access the full range of Mobile Online Services.

## We Connect<sup>1)</sup> and We Connect Plus<sup>1), 2)</sup>

### We Connect<sup>1)</sup>

- Breakdown call [NEW](#)
- Parking Position
- Automatic Accident Notification [NEW](#)
- Vehicle status
- Doors & Lights
- Vehicle Health Report
- Driving Data
- Service Scheduling

- Horn & Turn Signals

1) To use We Connect, you need a Volkswagen ID user account and must log in to We Connect with your user name and password. You also need to conclude a separate We Connect contract or We Connect Plus contract online with Volkswagen AG. For We Connect Plus, you have 90 days after vehicle handover to register the vehicle at [portal.volkswagen-we.com](http://portal.volkswagen-we.com) to be able to use the services for the full period of validity free of charge. Only available in conjunction with a compatible Infotainment system. 2) With active renewal after expiration of the We Connect Plus services against extra charge. 3) The service is compatible with the most auxiliary coolant heaters. It is not compatible with vehicles which feature an auxiliary air heater. 4) Option at extra charge. 5) Only in conjunction with a CarPlay-capable device from the "Discover Media" navigation system. 6) Only available in conjunction

with the Streaming & Internet package. The scope of services of We Connect and We Connect Plus may vary and can be used at a later date. Illustrations include options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

**Parking steering assistance**  
"Park Assist"<sup>1), 2)</sup> **NEW**

Provides help with parking in parallel and bay parking spaces by automatically carrying out the optimum steering movements.

**Trailer manoeuvring system**  
"Trailer Assist"<sup>1), 3)</sup> **NEW**

Simplifies the control of a trailer combination for manoeuvring in bay parking spaces and for precise reverse driving.

**Side protection<sup>1), 2)</sup> **NEW****

Monitors the sides of the vehicle during the journey and indicates critical approaches to pillars or walls on the display of the Infotainment systems.

**Tyre Pressure Monitoring System<sup>1), 3)</sup> **NEW****

Informs the driver about the current tyre pressure before and during the journey and issues a warning in the event of pressure loss. There are sensors in each wheel that provide information about the tyre pressure by radio.

**Dynamic Road Sign Display<sup>1), 3)</sup> **NEW****

Detects speed limits and signs indicating no-overtaking zones and time- and weather-related restrictions by means of a special camera and informs the driver via the multifunction display.

**Cross Wind Assist<sup>1)</sup> **NEW****

Stabilises the vehicle in strong gusty cross winds through automatic braking interventions.

**"Lane Assist"<sup>1), 3), 4)</sup> **NEW****

Detects your own lane via a multifunction camera and corrects steering if you are close to crossing the lane boundary lines.

**Rear Traffic Alert<sup>1), 3)</sup> **NEW****

Provides help with reversing out of a parking space. If the driver does not respond to the acoustic warning when a vehicle approaches a critical distance, a brake is applied.

**Adaptive Cruise Control ACC, incl. "Front Assist" with City Emergency Braking System<sup>1), 3)</sup>**

Adjusts the speed of your vehicle to the speed of the vehicle ahead through active intervention, maintaining the distance specified by the driver.

**Hill Descent Assist<sup>1), 3), 5)</sup>**

Enables controlled and comfortable hill descent by reducing the engine speed and, if necessary, braking.

Ten driver assistance systems that make your life even easier.

1) Within the system thresholds. 2) As standard in the Multivan Highline. Option at extra charge in the Multivan Trendline and the Multivan Comfortline. 3) Option at extra charge. 4) The driver must be prepared at all times to override the assist systems. They are not released from their responsibility to drive with the utmost care. 5) Only in conjunction with the 4MOTION all-wheel drive. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

# A question of drive.

Everyone has their own driving style – and there is a right drive for everyone. Whether sporty, comfortable or efficient: the Multivan's engine/gearbox combinations and running gear adjustments hardly set any limits to your desire for freedom.

1) Not available for all engines. 2) Option at extra charge. 3) Only available in conjunction with the 4MOTION all-wheel drive. 4) Not available for the Multivan Comfortline with long wheelbase. 5) Available for Multivan 6.1 Trendline and Comfortline. Illustrations include options at extra charge. Please contact your local Volkswagen dealership for details of the standard equipment and optional extras available in your country.

## 4MOTION all-wheel drive<sup>1), 2)</sup>, running gear and gearbox

**4MOTION all-wheel drive.**<sup>1), 2)</sup> Via an electronically controlled multiplate clutch on the rear axle, the all-wheel drive automatically adapts the power transmission to the respective driving situation. The system's low weight is the basis for optimum driving behaviour and high driving dynamics.

**Dual clutch gearbox DSG.**<sup>1), 2)</sup> The TDI engines can be combined with an adaptive 7-speed dual clutch gearbox. This enables a fully automatic, smooth gear change without interruption of tractive power and adapts to the driver's driving style.

**Adaptive chassis control DCC.**<sup>1), 4)</sup> The following driver profiles are available "normal", "comfortable", "eco" and "sporty". The selection is made via a button and can also be made while the vehicle is in motion. In addition, you can also create your own driving profile.

**Mechanical differential lock.**<sup>1), 2), 3)</sup> As additional support to the 4MOTION all-wheel drive<sup>1), 2)</sup>, a mechanical differential lock is available for the rear axle. This makes it easier to start off in difficult off-road conditions and makes the Multivan one of the most all-terrain vehicles in its class.

The **manual stand regeneration**<sup>5)</sup> process, which was developed particularly with our customers with short trip profiles and also regular journeys at low revs in mind, can help to extend the lifespan of vehicle components through the optimized manageability of the diesel particulate filter regeneration process. In this way, the number of visits to the workshop can be reduced along with periods when the vehicle cannot be used.

The continued high performance of the diesel particulate filter, which is part of the effective emission control process, can only be guaranteed if the particles filtered are combusted during a virtually fully automated regeneration phase. It is often not possible to complete this regeneration phase, which lasts several minutes, in vehicles that are used largely for short trips. As a result, the diesel particulate filter becomes saturated over time and oil is diluted due to the incomplete regeneration phase - this leads to an increase in maintenance requirements.

This problem can be avoided using the carefully designed manual stand regeneration<sup>5)</sup> function, in which the regeneration phase can, using menu functions, be manually postponed or initiated. The function also provides information about future or active regeneration phases.

Your Volkswagen Commercial Vehicles partner will be happy to provide you with further information.

Sara turned her hobby into her profession. On foot, she and her family explore hidden hiking trails throughout Europe. She also shares her passion for nature with others and regularly gives hiking tips via the internet. There is one thing she always takes to the start of the route: **the Multivan Trendline.**

Sara

"We need a car that can handle anything. No matter where the journey takes us."

Explore the world with young and old – this is a great deal of fun in the Multivan Trendline. Its optional seating for up to seven and its large luggage compartment offer plenty of room to take everyone and everything with you. On the way, the two comfort seats with lumbar support in the cab and the wide 3-seater bench seat ensure a relaxed journey. After arriving, the journey of discovery continues in the passenger compartment. There is a folding table in the sliding door trim<sup>1)</sup> that can be hooked into the passenger compartment as a two-legged unit or set up outside as a four-legged unit – for a small snack, for example. If someone gets tired, a large lying surface can be conjured up in no time at all from the 3-seater bench seat and the multiflex board<sup>2)</sup>. The Multivan Trendline adapts perfectly to life. Every day anew.

3-seater bench seat with folding table<sup>1)</sup>.

Max and Maren love one thing above all else: cities. Big and small. Trendy places and hidden gems. As there are so many of them, they are often on the road. They also usually find a large souvenir at markets. The Multivan Comfortline offers enough space to take these souvenirs home.

The city hopper.

Max

"If we see something beautiful, we just take it home with us."

The Multivan Comfortline makes every city trip an absolute pleasure. On the way there, the Adaptive Cruise Control ACC<sup>1), 2)</sup> ensures a consistent distance to the vehicle in front. At the same time, Lane Assist<sup>1), 2), 3)</sup> detects the road markings via the multifunction camera. Small gusts of wind from the left or right are corrected by Cross Wind Assist<sup>2)</sup> immediately by means of gentle braking interventions. This help to keep the Multivan in its lane. The passenger compartment is available for a coffee break every now and then. There you can fold out the table and make yourself comfortable on the 3-seater bench seat.

Upon arrival, the Multivan Comfortline can be steered gently over cobblestones. The adaptive chassis control DCC<sup>3)</sup> comfortably cushions uneven surfaces. Even parking in underground garages is no problem. With a vehicle height of less than 2,000 mm<sup>4)</sup>, the camper van fits through almost any entry system. If you then stroll around the alleys and see a beautiful piece of furniture, there is no need to hesitate for long. Thanks to the rail system, the luggage compartment can be enlarged at will. Giving you the freedom you need.

Practical folding table<sup>5)</sup>, can be lowered into the side trim

"Discover Media"<sup>1)</sup> navigation system

Flexible luggage compartment up to 2,532 mm<sup>4)</sup> long

Sliding 3-seater bench seat

Paul is on the road a lot. In the city, the interior designer is constantly looking for new inspirations for his projects. And the passionate mountain biker finds the necessary relaxation in nature. His most important companion is always with him: **the Multivan Highline.**

Paul

"Others choose  
a sports car.  
I need a car for sport."

No other vehicle combines leisure and work as perfectly as the Multivan Highline. Carefully developed, the design still carries elements of its legendary predecessor. The numerous chrome parts and the multifunctionality are a homage to the very first VW camper van. A total of six chrome-coloured trims adorn the front of the vehicle. One of them, the bottom one, completely frames the elegant all-rounder. The Multivan Highline is stylishly rounded off by its standard 17-inch "Aracaju" alloy wheels in silver, the new LED headlights, the new LED tail lights and the dark privacy glass.

Its highly functional vehicle interior, however, shows that it is capable of much more than just a stunning appearance. From the simultaneous display of the navigation map on the Digital Cockpit and the screen of the "Discover Pro"<sup>1)</sup> navigation system to the removable cool box<sup>1)</sup> for cool drinks and practical accessories such as sturdy bicycle attachments, the Multivan Highline impresses with many leisure details. A wonderful way to combine work and leisure.

18-inch "Teresina" alloy wheel<sup>1)</sup> and LED headlights

Stowage areas under the individual seat

Leather-covered multifunction steering wheel and Digital Cockpit

Passenger compartment with 6-rail system, 2 electrical sliding doors

Wireless App-Connect<sup>1), 2)</sup>

1) Option at extra charge. 2) Only available in conjunction with a CarPlay-capable device from the "Discover Media" navigation system. Illustrations include options at extra charge. Please contact your local Volkswagen dealership for details of the standard equipment and optional extras available in your country.

The spacious vehicle interior of the Multivan Highline can also be used in everyday working life. With its comfortable 3-seater bench seat, its two individual swivel seats and the multifunctional table that can be moved and folded out freely, the passenger compartment is perfectly equipped for short meetings. Power for laptops and smartphones is supplied by the 230 V socket<sup>1)</sup> on the driver seat and the two USB C charging sockets in the side trim. And thanks to the “Climatronic” 3-zone air conditioning system, you can keep a cool head even during longer negotiations.

# My camper van. My life.

The decision for a Multivan is always a decision for more freedom. For the freedom to follow one's heart alone and to consistently go one's own way. This also applies to the equipment. The extensive standard equipment can be tailored precisely to your individual needs with many other extras – starting on page 54.

1) Please note that these are approximate values and dimensions may vary due to manufacturing tolerances. 2) The folding table may only be used in the vehicle interior when the vehicle is stationary. 3) Within the system thresholds. Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

## Standard equipment and dimensions of the Multivan Trendline.

1) The long wheelbase is only available for the Multivan Comfortline. 2) Depending on the engine/gearbox combination. 3) Not available for the Multivan Comfortline with long wheelbase. 4) The folding table may only be used when the vehicle is stationary. Not available for Multivan Comfortline with long wheelbase. 5) Please note that these are approximate values and dimensions may vary due to manufacturing tolerances. 6) Within the system thresholds. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

With the new Multivan CRUISE you are driving a car of the future today.

The reason for this is its intelligent driver assistance systems, which can support you in almost any situation – when overtaking, parking or leisurely cruising on the motorway. Its many sensors point in all directions: for example, to the left and right for the “Side Assist”<sup>1)</sup> lane change assist or to the rear for Rear Traffic Alert<sup>1)</sup>.

18-inch “Teresina” alloy wheel

#### Exterior

Chrome package **NEW**  
LED headlights and tinted LED tail lights **NEW**  
Fog lights with integrated static cornering light function  
16-inch “Clayton” alloy wheels in Silver<sup>3)</sup>  
17-inch “Devonport” alloy wheels in Silver<sup>3)</sup>  
Electrically adjustable, heated, folding door mirrors  
“CRUISE” badge on the B-pillars **NEW**  
Step insert in the passenger compartment and lock carrier loading sill protection in stainless steel **NEW**  
Insulating glass package with privacy glass in the passenger compartment

#### Interior

“ArtVelours” microfleece seat upholstery, two-tone in Palladium/Titanium Black **NEW**  
Decorative trim in Bright Brushed Grey  
Step lighting in the passenger compartment with “CRUISE” lettering **NEW**

#### Function

Digital Cockpit  
“Discover Media” navigation system with 20.3 cm (8 inch) touchscreen and six loudspeakers **NEW**  
“Climatronic” 3-zone air conditioning system  
Seat heating for driver and front passenger  
“Side Assist” lane change assist<sup>1)</sup>  
“Lane Assist” lane keeping system<sup>1), 2)</sup> **NEW**  
Adaptive Cruise Control ACC incl. “Front Assist” and City Emergency Braking System<sup>1)</sup>  
“Park Assist” parking steering assistance<sup>1)</sup> with ParkPilot front and rear and side protection<sup>1)</sup> **NEW**  
Rear Traffic Alert<sup>1)</sup> **NEW**

The Multivan CRUISE is based on the Multivan Comfortline. More standard equipment for the Multivan Comfortline can be found on page 46.

New: Multivan 6.1

# CRUISE

1) Within the system thresholds. 2) The driver must be prepared at all times to override the assist systems. They are not released from their responsibility to drive with the utmost care. 3) Depending on the engine/gearbox combination. Illustrations show options at extra charge, e.g. 18-inch “Teresina” alloy wheels in Black, burnished finish. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

The Multivan GENERATION SIX is reminiscent of one of the greats of automotive history: the T1 camper van. The striking design is deliberately based on the two-tone paint finish of bygone times. The nostalgic appearance is rounded off with the extensive chrome package, the “GENERATION SIX” badges and the 17-inch “Aracaju” alloy wheels in Silver as standard.

Multivan 6.1

# GENERATION SIX

## Exterior

- Chrome package
- LED head lights and tinted LED tail lights **NEW**
- Fog lights with integrated static cornering light function
- 17-inch “Aracaju” alloy wheels in Silver **NEW**

- “Climatronic” 3-zone air conditioning system
- Seat heating for driver and front passenger
- “Side Assist” lane change assist<sup>1)</sup>
- Adaptive Cruise Control ACC incl. “Front Assist” and City Emergency Braking System<sup>1)</sup>
- ParkPilot front and rear<sup>1)</sup>
- Dynamic Road Sign Display<sup>1)</sup> **NEW**
- “Light Assist” high-beam assistant

The Multivan GENERATION SIX is based on the Multivan Comfortline. More standard equipment for the Multivan Comfortline can be found on page 46.

<sup>1)</sup> Within the system thresholds. Illustrations include options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

Multivan 6.1

# EDITION

The Multivan EDITION celebrates sporty elegance in an inimitable way. Carefully selected paint finishes contrast with black high-gloss surfaces and add-on parts. New decorative films<sup>1)</sup> with red accent line underline the dynamic appearance. The Multivan EDITION also impresses with individual highlights, including the black 17-inch "Aracaju" alloy wheels with a burnished finish, which are reserved exclusively for it.

Pure Grey solid paint finish **NEW**

## Exterior

- LED headlights and tinted LED tail lights **NEW**
- Fog lights with integrated static cornering light function
- 17-inch "Aracaju" alloy wheels in Black, burnished finish **NEW**
- Electrically foldable door mirrors
- Door mirror housing painted in black
- B-pillars in high-gloss black
- Roof in high-gloss black
- Bumper, door handles and tailgate handle in body colour
- Decorative film<sup>1)</sup> with "EDITION" lettering on the side skirts and at the rear **NEW**
- Privacy glass in the passenger compartment

## Interior

- Step light trim with "EDITION" lettering

## Function

- Cruise control incl. speed limiter

The Multivan EDITION is based on the Multivan Comfortline. More standard equipment for the Multivan Comfortline can be found on page 46.

## Metallic paint finishes<sup>2)</sup>

-  Reflex Silver
-  Indium Grey
-  Ravenna Blue **NEW**
-  Mojave Beige
-  Copper Bronze **NEW**
-  Fortana Red **NEW**

## Solid paint finishes

-  Candy White
-  Cherry Red

1) After one to three years, decorative films may show signs of use and ageing, especially when exposed to direct sun. In very hot climates already during the first year. If the decorative film remains on the vehicle for a longer period, visual differences may become apparent between the area of the paint finish protected by the decorative film and the uncovered areas. 2) Option at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

Tow bar, removable, up to 2.5 t maximum trailer weight including trailer stabilisation <sup>5)</sup>	●	●	●

**01 Loading sill protection.** Protects the painted rear bumper from scratches when loading and unloading the luggage compartment. The plastic trim is available in Silver or Black.

**02 Rail system.** The unique rail system allows the 3-seater bench seat and the individual seats to be moved easily over the entire length of the passenger compartment. The reason for this is the intelligent mechanism that allows the seats to slide along on hard rubber rollers and snap securely upwards at any point. In order to remove or install the seats, the aluminium covers can be removed in a few simple steps. Vehicles with a multifunction table are equipped with two additional centre rails.

**Swivel seat with integrated child seat.** This multifunctional seat can be quickly converted from a full adult to a child seat. The supplied neck and head support can be easily attached.

**Multiflex board.** This stable board with padding divides the luggage compartment, creates an additional shelf and enlarges the lying surface.<sup>4)</sup>

**Electric tailgate.** It can be opened either via the remote control, the button<sup>6)</sup> in the driver door or the tailgate handle and closed by pressing the button in the tailgate trim or by briefly pulling down the tailgate.

**03 "Premium" bicycle carrier for the tow bar.** It is pushed onto the ball coupling from above and allows the theft-proof transport of two bicycles with a maximum weight of 60 kg. To open the tailgate, it is simply folded down using a foot lever. When not in use, the bicycle carrier can be folded compactly.

**04 "Basic Flex" bicycle carrier for the tow bar.** The flexible and expandable bicycle carrier can be loaded with two bicycles and folded down via a foot lever to open the tailgate.

**Bicycle carrier extension for "Basic Flex".** Allows up to three bicycles to be carried on the "Basic Flex" bicycle carrier.

**05 Bicycle carrier for the tailgate.<sup>12)</sup>** It offers space for four bicycles and may be loaded with a maximum weight of 60 kg. The lightweight, anodised aluminium carrier is also suitable for the electric tailgate.

1) Option without additional cost. 2) The folding table may only be used in the vehicle interior when the vehicle is stationary. 3) Not available for the Multivan Comfortline with long wheelbase. 4) If the multiflex board is ordered, the luggage compartment cover is omitted. 5) The permitted trailer weight varies depending on the engine. 6) Only available for the Multivan Comfortline and the Multivan Highline. 7) As standard in the Multivan Highline. Option at extra charge in the Multivan Trendline and the Multivan Comfortline. 8) Within the system thresholds. 9) The driver must be prepared at all times to override the assist systems. They are not released from their responsibility to drive with the utmost care. 10) Only available in conjunction with a tow bar or with preparation for the tow bar. 11) Only available in conjunction with the 4MOTION all-wheel drive. 12) Only available for vehicles with camper van registration. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

**01 Central locking with two remote controls and internal actuation.** Depending on the vehicle equipment, the electric tailgate and the two electric sliding doors can also be opened and closed independently of each other using separate buttons.

**02 eCall.** After an accident, automatically transmits the time, position and number of vehicle occupants to the emergency call centre and establishes a voice connection. The system is activated by a crash sensor or manually via the emergency call button.

**Electric childproof lock.** The sliding doors can be locked separately from the cockpit using buttons.

**03 Air conditioning system in driver cab with electronic control.** It makes it possible to infinitely adjust to a comfortable temperature.

**04 "Climatronic" 3-zone air conditioning system.** The fully automatic air conditioning system has various sensors and keeps the set temperature constant for the driver, front passenger and other passengers. In the passenger compartment, a second heater, an additional evaporator and several vents in the recirculating air canopy ensure a pleasant climate.

**Anti-theft warning system with interior monitoring.** Triggers acoustic and visual warning signals in the event of unlawful entry into the vehicle or unlawful uncoupling of a trailer. The safe function prevents the doors from being opened from the inside, e.g. when the windows are smashed in.

**05 Auxiliary air heater.** It works independently of the heater and fresh air ventilation system and can be controlled both via the central control panel and by remote control. Upon request, an auxiliary **water heater** is also available.

**06 Heat-insulating windows (A).** Significantly reduces the heat in the vehicle interior. **Privacy glass (B).** The dark windows in the passenger compartment offer a high degree of discretion. **Black solar protection film (C).** In combination with the privacy glass, it creates an almost opaque window.

**Sun blinds.** The dark net structure protects against sunlight and curious glances.

**07 Sliding windows.** New handles make it even easier to open and close the side windows.

**Cool box.** It is electrically powered by the second battery and is suitable for both cooling and heating. The 32-litre box can be removed without a base plate and loaded with 1.5-litre bottles horizontally or 1.0-litre bottles vertically in the kitchen.

**Good Night Package.** The Good Night Package is available in combination with the multiflex board. The package includes fabric blackout panels for the windows, a mini reading light, a washable cover and three drawers under the 3-seater bench seat.

1) Not available for the Multivan Comfortline with long wheelbase. 2) Please note that these are approximate values and dimensions may vary due to manufacturing tolerances. 3) Not available for all engines. 4) Only in conjunction with the 4MOTION all-wheel drive. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

[volkswagen-commercial-vehicles.com](http://volkswagen-commercial-vehicles.com)

More information is available at [www.de/anschlussgarantie](http://www.de/anschlussgarantie)

The consumption and emission figures listed have been determined in accordance with the measuring method prescribed by law. Since 1st September 2017, said new vehicles have already been tested in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP). This is a more realistic test procedure for measuring fuel consumption and CO<sub>2</sub> emissions. As of 1st September 2018, the WLTP will successively replace the New European Driving Cycle (NEDC). Due to the more realistic testing conditions, the fuel consumption and CO<sub>2</sub> initial values measured using the WLTP test procedure are frequently higher than those measured using NEDC. Further information about the differences between WLTP and NEDC is available at [volkswagen-nutzfahrzeuge.de/de/unternehmen/wltp-nefz.html](http://volkswagen-nutzfahrzeuge.de/de/unternehmen/wltp-nefz.html).

Currently, specification of the NEDC values is still mandatory. In the case of new vehicles with type approval as per WLTP, the NEDC values are derived from the WLTP values. The additional specification of the WLTP values is voluntary until their use becomes mandatory. If the NEC values are specified as ranges, they do not refer to a particular, individual vehicle and do not constitute part of the offer. They are purely for comparison purposes between the various types of vehicle. Additional equipment and accessories (attachments, tyre size, etc.) may change relevant vehicle parameters such as weight, rolling resistance and aerodynamics, thus affecting fuel consumption, electricity consumption, CO<sub>2</sub> emissions and driving performance values beyond the effects of weather, traffic conditions and personal driving style.

Further information regarding official fuel consumption and the official, specific CO<sub>2</sub> emissions for new passenger vehicles can be found in the "Guidelines on fuel consumption, CO<sub>2</sub> emissions and electricity consumption of new cars" which is available free of charge from all points of sale and DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, Germany or at [www.dat.de](http://www.dat.de).

Efficiency classes evaluate vehicles on the basis of CO<sub>2</sub> emissions, taking into account the vehicle's kerb weight. Vehicles corresponding with the average are given a D rating. A+, A, B or C ratings are given to vehicles which are better than the present-day average. and E, F or G to those below that average.

The coolant R134a it is utilised in the vehicle class N1. The T6.1 with the vehicle class M1 utilises the coolant R1234yf in combination with an air conditioning system. The GWP value of the coolant utilised is 1,430 (coolant R134a) and 4 (coolant R1234yf). The filling quantity is 585 to 615 g.

The vehicles shown in this catalogue may be equipped with optional extra at additional cost. All of the information regarding equipment and technical data is based on the characteristics of the German market and corresponds to the knowledge available at the time of printing. Your local Volkswagen dealer will be happy to provide you with details on the products available in your country. Subject to change without notice. DSG® and 4MOTION® are registered marks of Volkswagen AG and other companies in the Volkswagen Group in Germany and in other countries. The fact that a mark is not shown with an ® sign in this document cannot be interpreted as meaning that this mark is not a registered mark and/or that this mark can be used without prior approval in writing from Volkswagen AG. Volkswagen provides for the return and recycling of end-of-life vehicles. As such, all Volkswagen vehicles can be recycled and, subject to fulfilment of legal prerequisites, can be returned free of charge. Further information is available from your Volkswagen dealer, on the Internet at [volkswagen.com](http://volkswagen.com) or in the Federal Republic of Germany via the free-call phone number 0800 – VOLKSWAGEN (0800 – 86 55 79 24 36).

The use of mobile online services from We Connect is made possible by an integrated Internet connection. Where network coverage is available, the data costs incurred in this context within Europe are borne by Volkswagen AG, with the exception of Streaming & Internet services. To use the Streaming & Internet services and the wireless internet hotspot, data bundles can be bought via an external mobile communications partner, Cubic Telecom, and used within many European countries where network coverage exists. Information on prices and supported countries is available at [vw.cubiclecom.com](http://vw.cubiclecom.com). Alternatively, it is possible to use Internet radio, hybrid radio, and media streaming via a mobile end device (for example a smartphone) that is enabled to function as a mobile wireless internet hotspot. In this case, the corresponding services are available only in conjunction with an existing or separately concluded mobile contract between you and your mobile provider, and only where coverage by the corresponding mobile network is available. Depending on your mobile phone tariff, receiving data from the Internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). To be able to use the free We Connect app, you need a smartphone with a suitable iOS or Android operating system and a SIM card with a data package as part of an existing mobile phone contract between you and your mobile phone company or with a contract concluded separately for this purpose. The availability of the individual We Connect and We Connect Plus services described in the packages may vary from country to country. The services are available during the agreed contractual period and may be subject to amendments or ceased throughout the duration of the contract. For more information, visit [www.de/mod](http://www.de/mod) or contact your Volkswagen Commercial Vehicles dealer. For information regarding your mobile phone tariff, please contact your network provider.
